

TECHNICAL DATA SHEET

Diesel air intake cleaner

Art. no. 5861 013 300

P. Qty.: 1 / 12

For removing contamination and deposits in the intake area without needing to remove components

Contents	400 ml
Colour	Clear
Chemical basis	Water
Shelf life from production	18 Month
Density	1.039 g/cm ³
Density conditions	at 20 °C

Application area

Ideally, perform a test drive in advance. Alternatively, let the engine run until warm for at least 20 minutes. During the application, let the engine run at changing speeds up to a maximum of 2000 rpm. Use short spraying intervals of no more than 3 seconds. Leave a 10-second pause between each spraying action. Prevent fluid from collecting!

Notice

Only clean when at operating temperature.

The usage instructions are recommendations based on the tests we have conducted and our experience; carry out your own tests before each application. Due to the large number of applications as well as storage and processing conditions, we do not assume any liability for a specific application result. Insofar as our free customer service provides technical information or acts as an advisory service, no responsibility is assumed by the provision of this service except where the advice or information given falls within the scope of our specified, contractually agreed service or the advisor was acting deliberately. We guarantee the consistent quality of our products. We reserve the right to make technical changes and further develop products.
